

PLAY-DOH SOLAR SYSTEM EXAMPLE DOUGH RECIPE

Ingredients:

- 700 ml water
- 750 g flour
- 125 g salt
- 3 tablespoons of baby oil
- 3 tablespoons of cream of tartar
- A few drops of food colouring (optional)

Instructions

- Mix ingredients in a saucepan until smooth.
- Cook over low to moderate heat until most of the play dough can stick together.
- Remove from pan and begin to knead play dough as soon as possible.
- Knead until play dough is pliable, has an even texture, and is fun to handle!
- Store in an airtight container
